

When fuel efficiency and appearance are important to your organization, then keeping your aircraft washed regularly is necessary. Vestergaard Company has developed an open-basket aircraft washer based on the very successful Elephant MY Lite deicer (7-800 in use around the world).

The aircraft washer has a specially designed basket with soft safeguards and optional protection systems for safe driving and maneuvering.

The washer can be delivered with a separate detergent tank and a mixing system. Optionally you can also choose to have a heater and of course it can be delivered with one-man operation.

The Elephant MY Aircraft Washer can be delivered on a Volvo diesel Euro6 chassis or on the Vestergaard e electrical chassis.

## MAJOR ADVANTAGES

- » Based on proven technology
- » Highly reliable in operation
- » First-class workmanship
- » Safe maneuvering around the aircraft
